Subject: Fwd: EPA public meetings in Cape Fear watershed next week

Dawn,

Please make the front office aware of this situation. Also let them know that we are coordinating with OPA and appropriate HQ offices on messaging, and requesting guidance on the possibility of staffing this meeting. Personally, if we do staff I'd recommend Davina go, with support from someone at HQ. We will have SF staff on the ground and they are not prepared to address GenX questions.

Subject: EPA public meetings in Cape Fear watershed next week

Nancy,

R4 is co-hosting public availability sessions and a public meeting for the Kerr McGee Superfund Site in Navassa on Tuesday, 6/20. Navassa is in the Cape Fear watershed, about 10 minutes away from Wilmington and 1.5 hours from Fayetteville. Their drinking water is supplied by Brunswick County Public Utilities (BCPU) – not Cape Fear Public Utilities – however they draw some of the water from the Cape Fear River. BCPU has published several statements on the GenX issue:
<http://www.brunswickcountync.gov/genx/>.

Can HQ provide direction on how you would like regional EPA personnel participating in these meetings and/or working in the field in NC to address questions about GenX? We anticipate questions from both the public and the media. Note that representatives from the NC Department of Environmental Quality and the NC Department of Health and Human Services will participate in the meetings Tuesday and are preparing to respond to GenX-related questions.

Thank you,

Davina Marraccini
Public Affairs Specialist
